SUBANITHI M

Software Developer (Java Full Stack)
subanithi46@gmail.com | 8098238827 | Perambalur, Tamil Nadu, India
LinkedIn: linkedin.com/in/subanithi46 | GitHub: github.com/SubanithiM

PROFESSIONAL SUMMARY

Entry-level Java Full Stack Developer with a B.E. in Electronics and Communication Engineering (2026) and a strong foundation in Java, Spring Boot, MySQL, HTML, and CSS. Hands-on experience gained through a full stack developer internship, a deployed e-commerce project, and technical training in software development. Skilled in problem-solving and logical thinking, with a keen interest in contributing to innovative projects and organizational growth in the IT domain.

TECHNICAL SKILLS

Programming Languages: Java, SQL, Python
Frontend: HTML5, CSS3, JavaScript, React
Backend: Java Servlets, JSP, JDBC, J2EE, Spring Boot, Hibernate, REST APIs
Database: MySQL
Core Concepts: OOP, Data Structures and Algorithms, Collections, Multithreading, Exception Handling
Tools and Deployment: Git, GitHub, Maven, Apache Tomcat, Docker, Render, Aiven Cloud MySQL, Eclipse, VS Code, Antigravity
Other Technologies: Scapy

PROFESSIONAL EXPERIENCE

Java Full Stack Developer Intern | THE MIND IT, Trichy **Jun 2025 - Aug 2025**

- Built and deployed web applications using Java, Spring Boot, HTML, CSS, and JavaScript.
- Designed relational database schemas in MySQL, improving query performance for data-heavy modules.
- Implemented RESTful API endpoints with Spring Boot, integrating front-end and back-end seamlessly.
- Collaborated with a team of developers to deliver feature updates on schedule.

PROJECTS

Zoloto - E-Commerce Web Application **Jul 2026 - Oct 2026**

Java, JSP, Servlets, JDBC, MySQL, Docker, Git, GitHub

- Developed a full-stack e-commerce application using Java, JSP, Servlets, JDBC, and MySQL.
- Implemented database operations using the DAO pattern and CRUD functionality.
- Built user authentication, product browsing, shopping cart, wishlist, address management, and order workflows.
- Configured cloud database connectivity and deployed the application using Docker and Render; managed source code using Git and GitHub.

ARP Spoofing Detection System with Email Alert

Python, Scapy

- Developed a real-time ARP spoofing detection system using Python and Scapy to monitor ARP packets and verify IP-MAC address mappings.
- Detected suspicious MAC address changes associated with ARP spoofing attacks through continuous packet monitoring.
- Achieved real-time detection with terminal and email alerts, providing a lightweight and cost-effective solution for LAN security.

EDUCATION

B.E. in Electronics and Communication Engineering **2022 - 2026**
Government College of Engineering, Srirangam | CGPA: 72.5%

Higher Secondary Education **2019 - 2022**
Sree Ambaals Matric Hr.Sec.School, Padalur | SSLC: 80% | HSLC: 69.3%

CERTIFICATIONS

Full Stack Web Development | TAP Academy **2024**
Core Java, Advanced Java (JDBC, J2EE, Servlets), Spring, Hibernate, MySQL, and frontend development. Hands-on experience in OOP, Collections, Multithreading, Exception Handling, and Java 8 features (Lambda Expressions, Stream API). Built a capstone Online E-Commerce Web application covering database integration and responsive UI design.
